

MUHAMMAD HASSAN ZAHID

Computer Science Student • Aspiring Full-Stack Developer

Lahore, Pakistan | dev.hassanzahid@gmail.com | [LinkedIn](#) | [GitHub](#)

TECHNICAL SKILLS

Languages

C++ • JavaScript (ES6+) • SQL • HTML5 • CSS3

Frameworks & Web

React.js • Node.js • Tailwind CSS • REST APIs • Vite

Databases & Tools

PostgreSQL • Git & GitHub • VS Code • Postman

EDUCATION

BS Computer Science

University of Management and Technology (UMT), Lahore

In Progress

Relevant Coursework

- Data Structures
- Object-Oriented Programming
- Database Systems
- Computer Networks
- Software Engineering

CORE STRENGTHS

- Problem Solving
- Clean Code
- Full-Stack Development
- UI/UX Design
- Team Collaboration

PROFESSIONAL SUMMARY

Computer Science student at UMT Lahore focused on full-stack software development and practical problem solving. Experienced with C++, JavaScript, React.js, Node.js, SQL, and responsive web technologies. Interested in building reliable, maintainable, and user-friendly software solutions while continuously improving development skills.

PROFESSIONAL EXPERIENCE

Software Developer / Intern

Devnexus at Digital Solution (Pvt) Ltd | Internship

- Collaborated with senior engineers on scalable full-stack web applications using modern JavaScript frameworks and responsive styling.
- Built interactive front-end components with React.js and Tailwind CSS for consistent, responsive interfaces.
- Assisted with database schema design and SQL query optimization for improved application performance.
- Participated in code reviews, debugging, and Agile sprint activities while following clean coding practices.

FEATURED PROJECTS

Library Book Recommendation System

C++ • OOP • DSA

- Developed a C++ library management and recommendation application using object-oriented design and custom data structures.
- Implemented search and recommendation logic for efficient catalog and user queries.

LuxeShop — Elevate Your Everyday

React.js • Tailwind • Vercel

- Built and deployed a responsive e-commerce application with product filtering, modern UI, and cart state management.

Enterprise Dashboard Pro

React • Node.js • PostgreSQL

- Developed an analytics dashboard with dynamic data visualization and real-time state updates.
- Designed a high-contrast Bento-grid interface focused on readability and accessibility.

Online Quiz & Time Evaluation System

JavaScript • HTML5 • CSS3

- Created a web-based assessment system with countdown timers, dynamic questions, and instant scoring.
